Re: Below Market Offers - Reed Home - 817 Matlack Drive Moorestown, NJ 08057

To Whom It May Concern:

I am Louise Carter. I am a Realtor for BT Edgar & Son in Moorestown, NJ, and I have been a realtor representing both buyers and sellers in Moorestown, NJ since 1986. (Please see my professional... biography attached hereto). As a result, I am very familiar with the Moorestown real estate market.

In this role, I came to be the listing agent for Frank Reed's home at 817 Matlack Drive Moorestown, NJ 08057. I sold Mr. Reed that property as well, and knowing the Moorestown real estate market, Mr. Reed's property and its history, it is my professional opinion, that Mr. Reed's house value has been impacted negatively by a foreclosure action filed against him by GMAC.

Prior to GMAC's foreclosure action, Mr. Reed had a contract for sale on his house for the amount of \$2,040,000, (see: contract attached hereto). However, this sale did not close.

Unfortunately for Mr. Reed, every offer on his property AFTER GMAC filed its foreclosure against him, was substantially under market value, (see: offers attached hereto); and since the potential buyers actually disclosed that the reason for their under market offer was due to their concern over the property's foreclosure status, it is clear to me that this devalued Mr. Reed's home.

Since, Mr. Reed's last offer was for \$1,100,000 and his home was valued at \$2,040,000 just before the GMAC foreclosure action, (see: Appraisal and sales contract attached hereto) it is my professional opinion that Mr. Reed has lost a value of \$940,000.

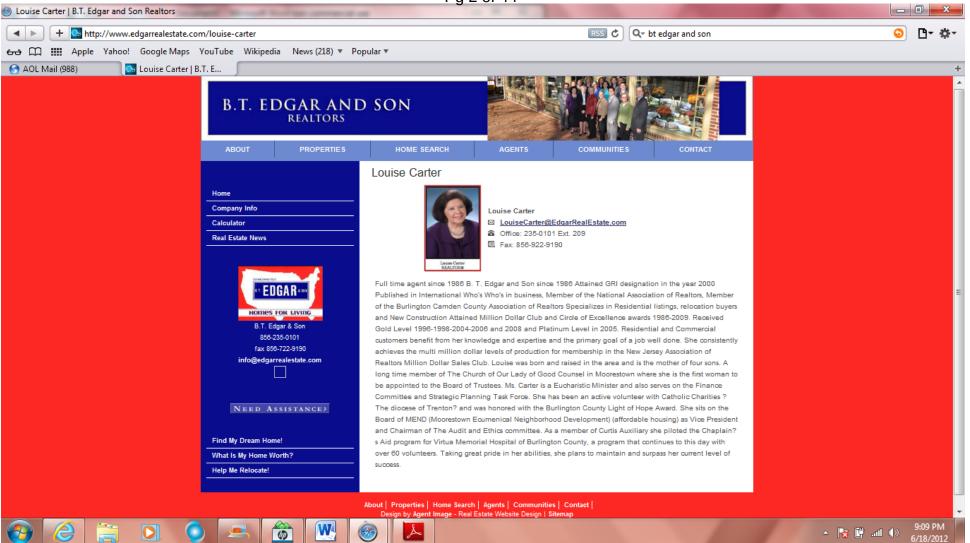

If you have any questions, please contact me.

Sincerely,

Louise Carter Realtor, GRI

B.T. Edgar & Sons, Realtors

To Buyer and Seller: Read This Notice Before Signing the Contract

The Law requires real estate brokers to give you the following information before you sign this contract. It requires us to tell you that you must read all of it before you sign. The purpose is to help you in this

	The title company does not represent either	the Seller or Buyer.	
2.	You will not get any legal advice unless you have your own lawyer. Neither I nor anyone from the title company of give legal advice to either the buyer or the seller. 4.	The contract becomes final and binding unless your lawyer cancels it within the following three business days. If you d not have a lawyer, you cannot change or cancel the contract unless the other party agrees. Neither can the real estat broker nor the title insurance company change the contract.		
5.	Another important service of a lawyer is to order	a survey, title report, or other important reports. The lawyer will review	

them and help to resolve any questions that may arise about the ownership and condition of the property. These reports and survey can cost you a lot of money. A lawyer will also prepare the documents needed to close title and represent

A Buyer without a lawyer runs special risks. Only a lawyer can advise a Buyer about what to do if problems arise concerning the purchase of the property. The problems may be about the Seller's title, the size and shape of the property, or other matters that may affect the value of the property. If either the broker or the title company knows about the problems, they should tell you. But they may not recognize the problem, see it from your point of view, or know what to do. Ordinarily, the broker and the title company have an interest in seeing that the sale is completed, because only then

Uniform Residential Appraisal Report

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
- 3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.

- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

SCOPE

This is the extent of the process of collecting, confirming and reporting market data.

The primary source of the market data used in this report was the Multiple Listing Service in the subject County. Also, where necessary, market data from the appraiser's files and public records were utilized.

INCOME APPROACH

The Income Approach was not developed due to the lack of rental data in the local market which precludes developing a market rental estimate for the subject. Nearly all dwellings, locally, are owner occupied. This situation also causes a dearth of sold rental properties making it virtually impossible to derive a gross rent multiplier.

ZONING

A representative of the zoning office indicates the subject property building lot is legal, conforming and the existing improvements can be rebuilt if destroyed or are found to be uninhabitable.

Zoning conformance is a legal matter, we suggest an attorney's opinion be sought to confirm the appraiser's conclusion.

MORE THAN SIX MONTHS

In order to present the most similar sales, it is necessary to select sale 3, which is more than six months old, due to the low sale turnover in the subject neighborhood.

The sale has a full finished basement with a powder room. The sale has superior construction to the subject with a slate roof, stone siding and copper gutters and downspouts. The sale is superior with an inground pool and a fence. The sale is in good condition with an effective age of eight to ten years.

Sale No. 3 settled on August 17, 2006 and a 4% downward time adjustment was necessary.

After adjustments the sales indicated a value range of \$1,981,100 to \$2,177,300. All three sales have occurred between August 2006 and August 2007. It is my opinion, the sales indicate a value of \$2,040,000 to the subject.

Hello Louise,

We would like to place the following offer on your pocket listing, Matlack.

Price \$1,100,000 Down payment \$220,000 (20 percent) Deposit \$60,000 upon agreement of price.

We can close as early as 30 days, but are amenable to a longer escrow if the seller would like; however we do not want to close later than the end of august.

Additionally, upon agreement of the sales price, we would like a full description of what the legal dealings are with the bank and seller, as this may affect the closing, from the seller's attorney. As we would like for our attorney to review this.

Thank you, Kris and Nina
